As a React Developer, I've led the development of innovative and high-performance web applications. I enjoy converting difficult concepts into intuitive, elegant user interfaces and am skilled at designing scalable, responsive, and feature-rich frontends. Proven track record of designing strong apps, utilising the MERN architecture, and integrating seamless frontend-to-backend interactions.

Skills

- React JS & Next JS
- React Native
- JavaScript & ES6
- TypeScript
- Redux & Redux Toolkit
- HTML, CSS
- Material - UI
- Sass, Bootstrap
- Figma, Blender
- React Animation
- Node JS & MongoDB
- Axios & REST Api
- Jest
- Webpack
- Agile & Azure DevOps

Experience

Zero-Pixels Pvt Ltd | React Frontend Developer (Full-time)

Jan2022 - Nov2023

- Developed **CRM** software Lilypad Mobile App for fintech using **React Native** (IOS & Android).
- Employing state management libraries like Redux, context API, or React hooks for managing application state.
- Developing reusable and modular components that encapsulate specific functionalities and styling and managed in the Bit Library
- Participated actively in Agile/Scrum development methods to ensure project milestones were met on time and within budget.
- Integrated RESTful APIs and third-party libraries to enhance application functionality.
- Maintained and updated code repositories (Azure DevOps) using version control systems like Git.

SYSIROHUB Pvt Ltd | Frontend Developer (Self-employed)

Oct2019 - Feb2022

- Developed E-Commerce websites using **MERN** Stack.
- Developed websites for service based businesses.
- Developed and maintained responsive web applications using React, ensuring excellent user experiences.
- Collaborated with cross-functional teams, including designers and back-end developers, to implement features and optimize web performance.
- Deploying and maintaining applications using various hosting services or cloud platforms.
- Implementing **authentication**, **authorization**, and security features within the application.

Projects

1. Lilypad CRM 3.0

IOS : <https://apps.apple.com/us/app/lilypad-crm/id921371352>

Android : <https://play.google.com/store/apps/details?id=co.lilypad.login.crm>

Tools & Technology : React Native, CSS, Android Studio, **X code**, Google map, App Store Connect, Google play developer console, **AWS S3** Inegration, REST Api, **Azure DevOps**, User Authentication and verification, Bit.

Lilypad is a **CRM** is a mobile app (**Android & IOS**) designed especially for businesses that sell alcohol, providing a user-friendly interface for sales representatives to access customer information, update records, and manage tasks while working remotely in the field. Using the main elements we're renowned for, such the **social wall, activities, tasks, placements, and the account map**.

2. SMB Portal

Web : app.fintech.com

Tools & Technology : React JS, Next JS, **Mui Material Kit**, **Sonarqube**, Flagsmith, **Chameleon**, Bit, **Google map**, REST Api, Azure DevOps, **Auth0**, User Authentication and verification.

Retailers make use of the SMB portal (Web) to track the distribution of alcohol supply management from distributor to retailer. Following and overseeing opportunities, prospects, and leads as they go through the sales funnel. Automated lead scoring and assignment to sales representatives for efficient follow-up and conversion. Integration with **inventory management** systems to monitor SKUs, restocking requirements, stock levels, and product availability. **Product catalogue management**, includes classification, pricing, photos, and descriptions.

3. Current Affairs

Tools & Technology : React Native, CSS, **Android Studio**, X code, **Socket.IO**, AWS S3 Inegration, REST Api, Azure DevOps, **User Authentication and verification**, Bit.

Current Affairs is an mobile app (Android & IOS) helps users find their ideal partner by verifying suggested current affairs. This software matches users and offers **polls** and **real-time Chat discussion**. Every day, there is a specific question about current events that anyone may vote on. The app suggests profiles to like and initiate conversations with based on the votes. The user can send a message inviting someone to chat if they find any matches. The invitation is only valid for 24 hours, so even if the recipient declines, it still counts.

Education

● Bachelor of Science in Computer Science

Completed in 2019

- Chinmaya Mission College

Personal Info

Nationality - INDIAN

DOB - 10/Nov/1996

Passport Number - R3523417
