Experience

Zero-Pixels Pvt Ltd | React Frontend Developer

Feb2022 - Nov2023

- Created sophisticated CRM software using **React Native** for seamless **IOS and Android** ensuring cross-platform compatibility and optimal performance.
- Employing **Redux, Redux-Toolkit**, resulting in a 30% reduction in **code complexity** and increase in **optimal performance**.
- Crafting reusable, **styled components** stored in the **Bit** Library, assured scalability and ease of maintenance, resulting in a 40% reduction in development time for new projects.
- Interaction with the back-end team resulted in a 20% decrease in server response time by integrating user-facing aspects with **server-side logic**.
- Streamlined code management on **Azure DevOps** via Git.
- Prime collaboration among teams actively participating in **Agile/Scrum** facilitates effective team workflows, keeps projects on budget, and accelerated project delivery by 45 days earlier.

SYSIROHUB Pvt Ltd | Full Stack Developer

Oct2019 - Jan2022

- Specialized in crafting robust **E-Commerce** websites utilizing the **MongoDB, Express JS, React JS and Node JS Stack**, catering to service-based businesses.
- Designed responsive web applications using **React JS**, ensuring seamless navigation and engagement with a focus on delivering top-notch user experiences.
- Managed **deployment and maintenance** on diverse **hosting** services or **cloud platforms**, ensuring accessibility and reliability.
- Implemented rigorous authentication, authorization, using **Auth0, JWT** and security measures within the applications, prioritizing user data protection and overall system integrity.

Projects

1. Lilypad CRM 3.0 [Android](#) [IOS](#)

Tools & Technology : **React Native, TypeScript, CSS3, Android Studio, X code**, Google map, App Store Connect, Google play developer console, **Redux-Toolkit, AWS S3** Inegration, REST Api, Bit.

- Mobile app (**Android & iOS**) built specifically for fintech enterprises who sell alcohol in USA.
- User-friendly interface for **sales** people to access client information, change records, and manage tasks while working remotely in the field. Have specific Active Member more than 3000.
- Features such as the **social wall, profile, activities, tasks, placements, account map, Dashboards**.

2. SMB Portal [Web](#)

Tools & Technology : **React JS, Next JS, Mui Material Kit, Sonarqube, Chameleon, Bit, Google map**, REST Api, **Auth0**.

- Used by retailers to track the distribution of alcohol supply management from **distributor to retailer**.
- Following and supervising the progression of opportunities, prospects, and leads through the sales funnel.
- Automated lead scoring and assignment to **sales** representatives for efficient follow-up and conversion.
- Integration with **inventory management systems** to monitor SKUs, restocking requirements, stock levels, product availability and **administrative dashboard** with multilevel view.
- **Product catalogue management**, includes classification, pricing, photos, and descriptions.

3. Current Affairs [GitHub](#)

Tools & Technology : React Native, TypeScript, CSS, Android Studio, X code, **Socket.IO**, AWS S3 Inegration, REST Api, React Animation, **OTP** generation, **JWT**, Bit.

- Mobile app (Android & IOS) helps users find their ideal partner by verifying suggested current affairs.
- App suggests matching profiles to like and initiate **Real time chat** and Polls.
- The user can send a message inviting someone to chat if they find any matches.
- The invitation is only valid for 24 hours, so even if the recipient declines, it still counts.
